

AADIL ALI MAHAR

Virtual Assistant | Tech & AI Support | Customer Service

Lahore, Pakistan | +92 324 0879719 | adilmahar72@gmail.com

PROFESSIONAL SUMMARY

Tech-savvy and proactive Virtual Assistant with a Computer Science background, strong communication skills, and hands-on experience supporting customer service, admin tasks, eCommerce workflows, online research, documentation, and digital tools. Comfortable using AI tools to speed up research, content preparation, task planning, and workflow organization. Detail-oriented, resourceful, and able to support UK-based remote teams with professional communication and reliable execution.

PROFESSIONAL EXPERIENCE

Virtual Assistant / Customer Service Support

Remote Projects | 2024 - Present

- Handled customer messages, order updates, follow-ups, and administrative support with a clear, professional tone.
- Used Shopify at a basic level for product/order checking, customer information review, and eCommerce support tasks.
- Organized tasks, reminders, notes, and daily workflows using Trello and Google Workspace.
- Prepared simple reports, summaries, and customer response drafts to support smooth team operations.

AI & Digital Workflow Assistant

Academic and Freelance Projects | 2023 - 2024

- Used AI tools for research summaries, document drafting, idea generation, content planning, and productivity support.
- Created structured documents, presentation outlines, social media content drafts, and task checklists.
- Researched technical topics and converted complex information into clear, easy-to-understand notes.

Computer Science Project Support

University Projects | 2022 - Present

- Worked on academic projects involving documentation, research, reporting, and basic technical problem solving.
- Built strong understanding of software tools, digital systems, online collaboration, and structured workflows.

RELEVANT PROJECTS

- AI Productivity Workflow: used ChatGPT-style tools to create SOPs, task plans, summaries, and client-ready drafts.
- eCommerce Admin Support: practiced Shopify product/order support, customer communication, and issue tracking.
- Technical Research Support: prepared clear notes and summaries from technical sources for presentations and reports.
